1 THE ESSENTIAL SKILLS FOR CAREERS IN THE SKILLED TRADES AND TECHNOLOGY

SCC is currently working with Employment and Social Development Canada (ESDC) in order to bring awareness to the importance of Essential Skills that are absolutely crucial for success in the workforce. Part of this ongoing initiative requires the integration and identification of Essential Skills in contest descriptions, projects, and project documents. The next phase and very important aspect of our Essential Skills (ES) initiative is to provide an ES report card to each competitor at the Skills Canada National Competition. The purpose of the ES report card is to inform the competitor about their current level of essential skills based on their competition scores. With this knowledge, the competitor will be made aware which essential skill may require improvement. Full implementation is expected in the next Skills Canada National Competition.

The following 9 skills have been identified and validated as key essential skills for the workplace in the legend below:

¹Numeracy, ²Oral Communication, ³Working with Others, ⁴Continuous Learning, ⁵Reading Text, ⁶Writing, ⁷Thinking, ⁸Document Use, ⁹Digital

These essential skills have been identified with in section 2.3 and/or 3.2 of your Contest Description. The top three Essential Skills for your area of competition have been identified on your Project and all other supporting project documents.

2 CONTEST INTRODUCTION

2.1 Description of the associated work role(s) or occupation(s).

<http://skillscompetencescanada.com/en/careers/services/fashion-technology/>

2.2 Purpose of the Challenge.

Assess the contestant's ability in critical thinking, creative design, pattern making, and sewing construction in the field of women's apparel design.

2.3 Duration of contest.

12 hours

2.4 Skills and Knowledge to be tested.

The contest will focus on practical work. Theoretical knowledge is limited to what is necessary to carry out the practical work. Candidates will complete a double breasted trench coat.

3 CONTEST DESCRIPTION

3.1 List of documents produced and timeline for when competitors have access to the documents.

DOCUMENT	DATE OF DISTRIBUTION VIA WEBSITE

3.2 Tasks that will be performed during the contest

- At the beginning of day one of the competition, an element of either a vent (with mitred corners) or a slit (with mitred corners) will be drawn from a ballot with specific measurement requirements ¹. Competitors must incorporate this element appropriately into their technical drawing, pattern and garment.
- Updated technical drawing must be submitted by 10:00am on the first day of competition. Points will be lost if the final garment does not match the technical drawing ⁸
- Candidates will create their pattern from the basic double breasted trench coat block provided ⁸
- Pattern pieces related to the vent or slit element must be submitted by the end of the first day, for judging
- Industry sewing standards for garment construction to be maintained as equipment allows ⁷
- As part of the evaluation, the following aspects will be considered:
 - The degree of difficulty and skill level of the pattern development as it affects the construction of the double breasted trench coat
 - The quality of the technical drawing
 - The quality of the double breasted trench coat and lining construction
 - The fit and wearability of the double breasted trench coat
 - The overall appearance of the garment and conformity of the design to the technical drawing
- In the event that no competitor has finished the double breasted trench coat, the time allowed will be extended by a maximum of 30 minutes or until the first garment is finished

Essential Skills – ¹Numeracy, ⁷Thinking (Problem Solving, Job Task Planning & Organizing, Significant Use of Memory) and ⁸Document Use
