

Skills/Compétences Canada, Skills Canada Alberta, and Stanley Black & Decker Tool Enhancement Program Evaluation Guidelines

This program is for eligible schools located in the province that is hosting the Skills Canada National Competition.

Applications that receive strong consideration should include the following additional information:

- School's requirement(s)
- Confirmation of a qualified journeyperson/teacher to properly teach tool application
- School's commitment to the Skills Movement
- Inclusion of the Essential Skills as they relate to skilled trades and technologies (numeracy; oral communication; working with others; continuous learning; reading text; writing; thinking; document use, and digital technology).
- Long term impact on a skilled trade or technology program
- How this donation could be used to train students for upcoming Skills Canada competitions
- Identified school improvement project

Points of consideration that may disqualify a proposal:

- Incomplete applications
- Weak enrollment in trade and technology program
