British Columbia Teachers and Students
to Participate in the **Official Launch of
NSTTW at British Columbia Institute of
Technology (BCIT), Burnaby Campus**

**Space is
Limited!**

**Deadline for
Registration is
OCTOBER 24**

National Skilled Trades and Technology Week (NSTTW) is a key date in the Skills/Compétences Canada (SCC) calendar. The goal of this week of activities is to promote and host awareness-raising events focused on career opportunities in skilled trades and technology (ST&T) occupations. SCC events along with those of other like-minded organizations will engage young Canadians, parents and the general public in many fun and interesting activities.

The week will kick off with a launch event that will feature special guests and a fun-filled day of interactive Try-A-Trade® and Technology activities. These activities are aimed at increasing awareness and understanding of ST&T careers and this year will focus on **Document Use, one of the nine Essential Skills**, which is paramount for success in many careers including those in skilled trades and technologies.

Morning and afternoon sessions are available, as well as bus subsidies on a first-come-first-serve basis. **Morning session starts at 9:30 AM, and afternoon session starts at 1:15 PM**
