

The Carpentry and Electrical programs at the Steinbach Regional Secondary School would like to thank DeWalt for awarding our programs with tools from the DeWalt tools grant from the 2023 National skills Competition held at the Convention Center in Winnipeg Manitoba.

The tools awarded to our School through the DeWalt Tool Grant have helped improve the efficiency of our on-site projects. We are currently using these DeWalt tools to build a 40'-0" x 100'-0" storage facility in our Vocational compound. Having quality DeWalt cordless tools has made working outside of the shop much more efficient, which has greatly enhanced time on task for the students working on the storage facility.

STEINBACH REGIONAL SECONDARY SCHOOL

190 McKenzie Ave. Steinbach, Manitoba, Canada R5G 0P1

P: 204.326.6426 F: 204.326.1113

Thank you for investing in the young Trades people of the future through your support of Skills National Competitions and the generosity of awarding schools across Canada with DeWalt Tools used in these competitions. This grant will have a lasting impact on their learning and lead to their contributions into various trade industries.

Regards,

Paul Wilson / Marc Levesque
