

On behalf of the Kalamalka Secondary Trades & Technology Department, I extend my gratitude to Stanley DeWalt for their generous donation of exceptional tools.

The Kalamalka Secondary woodwork program has benefited immensely from the Stanley DeWalt Tool Grant donation. With the new tools students have been able to expand and develop their skills in a way not possible before. Having these tools has boosted morale and created a strong sense of pride in our shop. Having quality tools empowers students to do quality work, and the students realise that having such a large number of brand-new machines is unique in a school setting.

Since receiving the Stanley DeWalt tool grant, classes have been building projects for themselves and for our school community. Our grade 10-12 woodwork class has taken on the task of building new games and activities for our P.E department and school spirit days. Our school now has multiple sets of these games that would not have been possible without the generous donation from Stanley DeWalt.

These tools will be a fixture of our shop for many years to come and for that we are grateful.

Thank you again Stanley DeWalt for your donation!

Jason Parkinson
