Media Code of Conduct

Skills/Compétences Canada openly encourages and promotes all aspects of the Skills Canada National Competition to media. However, to ensure competitors are respected during competition time, a code of conduct applies. In other words, no photography or filming of a competitor should take place that may interfere with or hinder the performance of the competitor in the competition.

In Addition

- Media may take photos and film from outside the contest areas during the competition.
- Media can enter a contest area only during breaks in the competition **with the permission of the Chair of the National Technical Committee (NTC) for that Skill Area**. Specific 'shots' or 'angles' are to be organized in discussion with the Chair or NTC media member, and the competitor. Steel toe shoes/boots are required to enter the contest area.
- The NTC media member for each skill area will be identified with a fluorescent yellow wristband.
- No media can communicate with a competitor without the permission of the NTC Chair or the NTC media member.
- No media is to enter the 'personal space' (i.e. do 'close-ups') of a competitor without the permission of the NTC Chair or NTC media member.
