

Soaring Skills 2023

This year the UA Canada Soaring Skills program, along with RBC Foundation, First Peoples Development Inc. and SCC are thrilled to host Indigenous Students from Northern Manitoba and Nunavut to come experience all that Skills Competence Canada has to offer. Students will be able to explore the Try-A-Trade activities, immerse themselves in the environment of the competition and learn about the unlimited opportunity and potential there is with a career in the skilled trades.

The students will not only get to experience SCC but also enjoy themselves at Camp Manitou with support from the True North Youth Foundation. Here students will have a chance to participate in several programs and activities such as, nature hikes, sports, games, fire building, zipline, archery, fishing and more!

Skilled trades are essential, and by trying out different trades during the SCC event, students get to experience what it's like to work with tools to build and create something – sparking interest in these amazing careers. There is no better time than now to showcase the opportunities available to students from all over this beautiful land, and no better place than Skills Competence Canada to do it. These students will have the opportunity to see the best and brightest compete in their trade and inspire the next generation of youth.

This will surely be an event for them to remember!
