

WORLDSKILLS COMPETITION 2022 SPECIAL EDITION

ABOUT THE WORLDSKILLS COMPETITION 2022 SPECIAL EDITION

Held every two years, the WorldSkills Competition represents the best of international excellence in skilled trades and technologies. Young competitors from around the globe compete at the WorldSkills Competition, with the goal of earning the title of world champion in their Skill Area. These competitors represent the best of their peers and have earned a spot on their country's team through dedication and hard work. At the WorldSkills Competition, competitors participate in simulated real work challenges, and are judged against international quality standards.

The 46th WorldSkills Competition was initially going to be held in Shanghai in 2021 however due to the ongoing Covid pandemic, it was postponed to 2022 and developed into a unique format. The WorldSkills Competition 2022 Special Edition (WSC2022SE) is showcasing 62 skill areas in 15 different countries and regions around the world. The WorldSkills member countries and regions rose to the occasion to host these competitions across Europe, North America, and East Asia starting on September 7 and ending on November 26, 2022.

Skills/Compétences Canada, the Canadian Member Organization of WorldSkills has been selected to host the Industrial Mechanics competition for the 2022 WorldSkills Competition Special Edition. This will be held at Sheridan College, Davis campus, in Brampton, Ontario, from October 18 to 20, 2022 and will include nine competitors representing nine countries/regions. This is the only competition that will be hosted in Canada. Industrial Mechanics was first introduced in 2015 by Craig Brazil, who was the Canadian Chief Expert for this Skill Area at the WorldSkills Competition.

Over 1,000 Competitors from 58 countries and regions will participate in the WorldSkills Competition 2022 Special Edition. These events re-establish the biennial cycle of WorldSkills Competitions, disrupted by the pandemic. Ongoing monitoring of local and global pandemic controls will be incorporated into health and safety protocols for each competition.
