

Appendix G: NTC Battery SDS List

The National Technical Committee for Skill #23 - Mobile Robotics has the Safety Data Sheets for the following batteries, and will have them on site. If you are using a battery not on this list, or you are unsure, please reach out to your Provincial/Territorial representative on the NTC for Mobile Robotics.

Battery SDS we have:

Tetrix 3000 mAh NiMH Rechargeable Battery
Lithium Polymer Battery (LiPO)
Lithium Ion Polymer Battery (LiCoO₂)
Lithium Titanate Battery
Lithium Iron Phosphate Battery (LiFePO₄)
Lithium Ion Battery Packs (Detachable Battery Packs, Stanley/DeWalt, Stanley Black and Decker Manufactured)
Lithium Ion Battery Packs (Detachable Battery Packs, Milwaukee Manufactured)
Lithium Ion Battery Packs (Detachable Battery Packs, Makita Manufactured)
Lithium Ion Battery Cell (LithiumWerks)
Lithium Ion Battery (Energizer)
Sealed Lead Acid Battery
Nickel Cadmium Rechargeable Battery
Alkaline Battery (Duracell, Energizer)
Duracell Rechargeable (NiMH)
Nickel Metal Hydride (NiMH) Battery
Vex V5 Lithium Ion Battery
